COLUMBUS NOW HAS IRRIGATION

A. O. Bailey Has First Deep Well in District—Others Put Down.

Columbus, N. M., April 11.—Columbus is jubilant over Col. A. O. Bailey's new well about three miles south of town, which was flowing nearly all day at the rate of about 2000 gallons per minute without any apparent decrease in the water supply. This well was drilled by Beach, Peters and White and is 185 feet deep. The water rises in it to within three feet of the surface and it is practically an artesian well. Kraus, Zork & Moe have installed a centrifugal pump, having a capacity of 2000 gallons to which they have attached a 16 horse power Stover gasoline engine.

It was an attractive sight to see vast quantities of water conducted in large ditches around a great amount of land under cultivation and ready for irrigation. Such a scene was never before witnessed in this region and the people were enthusiastic as they saw it. Col. A. O. Bailey has resided in this locality for nearly 20 years and has been successful in stock raising and now has the honor of being the first to obtain water in sufficient quantities for irrigation.

Many other wells are being secured about Columbus and the settlers are busily engaged in making various improvements. It is expected that at an early date this region will be converted into as prosperous and beautiful an agricultural section as can be found in the southwest.

New Business Building. Activity about the town is also manifest. A new business building is being erected which is to be completed in 30 days. The new Methodist Episcopal church will also be erected at once. At the election the largest vote was polled in the history of Columbus. A. O. Bailey was unanimously elected to succeed himself as school director. County superintendent of schools, Ney B. Gorman, is visiting Columbus and has appointed Alvin C. Ash as school director to succeed the late P. H. Melvin.

A library of 1000 volumes is being placed in the office of the United States commissioner which will be valuable to the citizens of Columbus for reference and reading.

Justice of the peace, S. Otis Dotson, has returned from trip to Ohio, and reports himself ready to resume the duties of his office. Former deputy sheriff William D. Chase, has returned with his family from Oklahoma, and has removed a carload of effects to his homestead north of town.

He has just finished delivering about 150 head of steers, which he recently sold to Chase Huddleston, of Kansas City, Mo. These were delivered at Pecos City. It is also understood that these brought about \$31 per head.

Miss Mae Greenwood has returned from San Antonio where she has been attending a business college.

The members of the Methodist church of this city are contemplating the building of an addition to their church to meet the demand of the rapidly growing Sunday school. ENGLISH SODIGATE TO IMPROVE TERRAZAS RANCH NEAR EL PASO

Chihuahua, Mex., April 11.—It is given out here that Sir William Wiseman and Capt. C. O. Greenwell have until the last of April, 1910, in which to take over the Hacienda San Luis (commonly known as the Naris ranch), of Gen. Luis Terrazas. The ranch consists of 650,000 acres, about 50 miles east of Nueva Casas Grandes, Chih., and the north end of it is about 80 miles from El Paso.

A prospectus recently received from London shows that Sir Wm. Wiseman and Capt. Greenwell have the Union syndicate of London and Mexico promoting the Santa Maria Land company, limited, to take over and develop the ranch. The plan of developing the property as an English estate is to provide irrigation works for 200,000 acres, at least, and sell it out in small farms to settlers and convert the remainder of the property into a cattle ranch. The land is in the valley of the Sta. Maria river.

Henry Marsh, late consulting engineer of irrigation to the Indian government, recently examined the property and has recommended that about 30,000 acres be put under irrigation, beginning at once, by minor works, at a cost of \$15,000.

The prospectus gives the board of directors of the company as follows: Sir Alfred Newton, chairman; C. de Brose, Arthur Reginald Bovill, Capt. C. O. Greenwell, Henry Marsh, F. F. Medina and Sir Wm. Wiseman. The advisory board in Mexico is given as governor Enrique C. Creel and Alberto Terrazas of this city, and G. Ribon, of Mexico City.

MORE RAIN FALLS AT PORTALES, N. M.

Portales, N. M., April 11.—Portales had an all night rain that settled the dust and drenched the ground for several inches. The whole country is rejoicing over a real irrigation.

Fred Wagner, of Lakewood, is here, superintending the building of the Joyce-Trust company's store.

C. W. Morris, with his rock crusher, furnished crushed rock for foundations for the town power house, the irrigation power house, and for the Joyce-Trust company store.

The farmers have organized a telephone company, extending to postoffices and stores at Causey, Leach, Longo, Dora, Inez, Minco, Carter and Meles. A committee of three, representing this company conferred with the business men of Portales as to a proposition to put up a line from its board at Longo to Portales. Subscriptions to the amount of \$100 were made and if the line is built it will be connected with the Roosevelt County Telephone company and the town people will be in communication with all phones on the farm.

In the school election Inda Humphrey was elected to succeed C. V. Harris as clerk of the board. W. H. Snell and A. A. Williams were also elected.

Malvo is being advertised as a sure crop for the Portales valley, and representatives of the Grain Growing association are advising Roosevelt county farmers to plant a good crop this season.

The County Teachers' association will meet here the last of the month, and much preparation is being made for their entertainment in connection with the closing exercises of school.

A new dress has been organized in Portales and will give its first entertainment at the Wonderland theater, April 15. The club is composed of some of the town's best talent.

The Roosevelt County Telephone company has just completed a full metallic circuit line between Portales and Clovis. It expects to install a phonograph making two convenient possibilities over the same line. It only needs now a metallic circuit line between Hereford and Texico to make it possible to talk from Portales to Fort Worth or Dallas.

J. W. Kender, a wealthy ranchman, was in Bisbee recently. He stated that conditions in the country are much improved, owing to the last rains. He said also that several places are infested by wild dogs, as large as Newfoundlanders, which kill pigs, chickens and even small calves, and that an organization of ranchers is being formed to exterminate those vicious beasts.

Overloading The Stomach

Causes Incomplete Digestion, Weakens The System, and Breeds Dyspepsia.

Trial Package Free.

Gluttony is as vile a sin as drunkenness and its evil results are more terrible and far more rapid. The human system turns into the stomach and alimentary canal from 7 to 35 pounds of digestive fluid every twenty-four hours. Cram your stomach with food and you exhaust these juices. If your stomach cannot digest the food because it lacks juices to do with, you should either eat less or make more gastric fluids.

Stuart's Dyspepsia Tablets contain ingredients one grain of which will digest 2000 grains of food. With Stuart's Dyspepsia Tablets in your stomach the evil effects of overeating are removed, for these little tablets when dissolved stick to the food and digest all the good from it. They won't abandon the stomach and leave a mass of undigested food to rot and putrify and irritate the mucous membrane lining.

They give greater quantities of gastric fluid, help the intestines enrich the blood, prevent constipation, and glutinify, while sinful, may yet be made less harmful by the use of these tablets.

Every druggist carries them in stock; price 50 cents per box, or send us your name and address and we will send you a trial package free by mail. Address, P. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.
